

WAG COVID-19 Policy Updated July 2020

Note: Requirements may change as per provincial or federal restrictions.

Students will need to read and confirm agreement with this policy before a spot in a class will be confirmed.

Students may not come to class if:

- they have a fever
- they have been outside the country in the past 14 days
- they or anyone in their household have been in contact with a person known to have been infected with COVID-19 or to have any of the symptoms (fever, cough, etc) within the past 14 days

Students will be required to confirm that they meet the above requirements before accepting a spot in class. We require that students ask themselves these questions before coming to each class.

Physical distancing, staying 2m apart, is to be maintained by all as per provincial regulations and signs posted.

Students will wait at the road until their instructors or a designated student/volunteer calls them for their class. They are to practice physical distancing, staying 2m apart, while waiting. They will enter the path and field one at a time using physical distancing. They will leave the same way. It will be imperative for students to be on time for their classes. If the class is already in the field and has started, you will miss that class. You are **NOT** to enter on your own. As per our refund policy, a make-up class will not be provided.

Students will enter/exit the teaching area of the field using only one barrier gate. A designated student/volunteer will manage the barrier gate.

The tent is set up and students are responsible to physical distance if using it. WAG will not provide any extras in the field. Students are required to bring whatever they may need for their class (treats, water & water bowl, poop bags, hand sanitizer). **Please do not share.**

Masks will be worn where physical distancing cannot be kept. Instructors will decide individually whether to wear one or not.

Tie-downs will be spaced accordingly. **They are not to be moved.** Each student is to remain with their dog at the tie-down unless otherwise instructed by their instructor. Tie-downs will be cleaned between classes.

Classes will have a maximum of eight (8) students at all levels. In order to ensure that social distancing of 2m can be met, parents/partners/visitors will need to request permission, from the class Instructor, 24 hours prior to class, to be permitted in the field.

Students will **not** be allowed to touch the equipment. Instructors are to handle and move equipment. A designated student/volunteer may assist with replacing and changing jump heights.

Each day the gates, barriers and tie-downs will be cleaned by the instructor. A student will be designated to open the road gate, allowing a class to exit or enter.

Students must provide hand sanitizer for themselves. WAG will provide hand sanitizer for the instructors, designated student/volunteer and surface disinfectant for equipment.

WAG will have a porta potty available. Anyone who uses it must wipe everything they touched and make sure **NOT to put the sanitizing wipe in the porta potty.** Wipe and take it home! WAG will provide wipes.

The WAG field will be open to instructors only and members will not be able to book it.

Students not adhering to the policy will be warned by their instructor or the Head Instructor. If a second warning is required, the student will be asked to leave the class. Students in the class are encouraged to help remind their fellow students of the rules and to keep their physical distance.
